Education

- **Ph.D.**, Computers & Information Systems, University of Michigan, 1987
- **MBA**, Accounting, Indiana University, 1973
- **BA**, Mathematics (Physics & Chemistry minors), Indiana University, 1971
- **Languages**: English, Mandarin Chinese, Spanish

Awards, Certificates, Honoraries

1. Certified Public Accountant (Illinois License 065.035982)
2. Illinois CPA Society
3. Beta Gamma Sigma (Business Honorary Society)
4. Mensa International; American Mensa
5. Fulbright Specialist Award, Colombia, 2024
6. Fulbright Specialist Roster appointment by U.S. Department of State
7. Fulbright-Garcia Robles US Scholar, Mexico , 2026-7
8. 1000-Talents Plan Award, China, 2013-2016
9. High Level Foreign Expert designation, China
10. Stanford University's list of World's Top 2% Scientists

Career History

1. Professor, IDS, University of Illinois – Chicago, 2007-present
2. High-level Foreign Expert, P.R.China (under 1000-Talents Plan) Beihang University (Project 985 University, in Key Lab for Complex Decision making), 2012-2017
3. Adjunct Professor, XiDian University, Xian, P.R.China, 2017-present
4. Adjunct Professor, Shanghai University, Shanghai, P.R.China, 2019
5. Adjunct Professor, University of Science and Technology of China, Hefei, P.R.China (C9 League University), 2013-2016
6. Adjunct Professor, Key Center for e-Health, Harbin Institute of Technology, Harbin, P.R.China (C9 League University), 2011-present
7. Adjunct Professor, Key Lab of Financial Intelligence and Financial Engineering (FIFE) at SWUFE (Project 985), Chengdu, P.R.China, 2007-Present
8. Head, IDS, University of Illinois – Chicago, 2000-2007
9. Professor, Information and Systems Management (Adjunct Professor in 2008-9), HK University of Science & Technology, 1995-2007 Visiting Professor (on Sabbatical Leave from HKUST) Tsinghua University, Beijing, 2002-2003
10. Visiting Professor (on Sabbatical Leave from HKUST), Nanyang Technological University, Singapore, 2002
11. Associate Professor with Tenure, Information and Operations Management, Marshall School, University of Southern California, 1994-1996
12. Assistant Professor, IOM, Marshall School, University of Southern California, 1985-1988
13. Assistant Professor, Accounting, Eastern Michigan University, 1986-1987
14. PhD Student, Computers and Information Systems, University of Michigan, 1981-1987
15. Database Admin & Security Manager, Rockwell International, Electronic Operations, 1977-1981
16. IS Audit Manager, Republic Life, Dallas, 1976-1977
17. Accounts Payable / Payroll Manager, Federated Department Stores, Dallas, 1975-1976
18. Auditor, IS Consultant, Touche Ross, Chicago, 1973-1975

Editorial

1. Electronic Commerce Research (Editor-in-Chief, 2013-present) *Impact factor: 4.9 (2025), ; CiteScore: 11, Acceptance: 13%; articles/yr: ~300; Hybrid Publishing model, Annual downloads ~900K/yr (2026)*
2. Electronic Commerce Research and Applications (Editor, 2006-2014)
3. Scientific Reports, Associate Editor (IF 4.6, 5th most-cited journal in the world)
4. Information and Management (2011) , Associate Editor
5. Social Science Research Network: Information Systems & eBusiness (2004- 2014) , Board
6. Management Science (1995-2002) , Associate Editor
7. Information Systems Research (1996-2000) , Associate Editor
8. Electronic Markets (2001-Present) , Associate Editor
9. Telecommunications Systems (2003-Present) , Associate Editor

10. International Journal of Online Marketing (2010 - present) , Associate Editor
11. International Journal of Electronic Commerce (1996-Present) , Associate Editor
12. Electronic Commerce Research Journal (2001-Present) , Associate Editor
13. International Journal of Internet & Enterprise Management (2003-Present) , Associate Editor
14. International Journal of E-Entrepreneurship and Innovation (2011) , Associate Editor
15. International Review of Management (2004-present) , Associate Editor

Books and Software

1. Audit Analytics with Python, Springer forthcoming 2027
2. Bayesian A/B Decision Models, World Scientific, ISBN-13: 978-9819802050, 2025
3. Audit Analytics: Data Science for the Accounting Profession (in R. Gentleman, et al. "Use R!" series), Springer 2021; 2nd edition 2024; reviewed on Mike Fallet's "Million Dollar Book" podcast (Dec 20, 2023)
4. Structural Equation Modeling: from paths to networks, Springer, 2nd edition (2019); reviewed in Sarstedt, Marko, and Christian M. Ringle. "Structural Equation Models" *Psychometrika* (2020): 1-4. <https://doi.org/10.1007/s11336-020-09719-0>
5. Global Innovation Management: A Strategic Approach (2nd ed.) London: Palgrave / Macmillan 2018.
6. Structural Equation Modeling: from paths to networks, Springer, 1st ed. (2016)
7. Financial Auditing with Information Technology, Corder Press, ISBN-13: 978-1490448732; ISBN-10:149044873X, 2015
8. Red Wired: China's Internet Revolution, London: Cyan (Marshall Cavendish), 2010 (with S. So); Kindle edition, 2012
9. Global Innovation Management: A Strategic Approach London: Palgrave / Macmillan 2008; Companion Websites at <http://www.palgrave.com/business/westland/>, Simplified Chinese translation by Chinese University of Science & Technology Press, Hefei, Anhui, China.
10. Financial Dynamics: A System for Valuing Technology Companies, New York: John Wiley & Sons, June 2003 with Financial Dynamics software (versions 1 and 2)
11. Valuing Technology: The New Science of Wealth in the Knowledge Economy, New York: John Wiley & Sons, 2002; reviewed in Xu, X., and E. W. K. See-To. "What is knowledge and the technology to support it worth to the firm? Review of Westland, Christopher, Valuing Technology: the new science of wealth in the knowledge economy, John Wiley and Sons (Asia) Pte Ltd, 2002." *Journal of Information Technology Theory and Application* 4.1 (2002): 65-67.
12. Global Electronic Commerce: Theory and Case Studies (with Ted Clark) MIT Press, 2000, additional printings 2001-2; Chinese (simplified) from Fudan U. Press Shanghai August 2000; Chinese (full stroke) from Best Wise: Taipei, August 2000; republished by Universities Press (India) Limited for distribution in India, Bangladesh, Bhutan, Nepal, Sri Lanka, the Maldives, and Pakistan, paperback English, 2008
13. Information Technology Risk: A Guide for Accountants and Auditors, Hong Kong Society of Accountants monograph (HKICPA), 1996

Young Adult Books

1. Revolutionary Bites: Bite-Size Tales from Science, Industry and Politics, KDP, Dec 2023
2. The Book of Light, KDP, Feb 2024
3. The Teenage Guide to Artificial Intelligence, KDP, March 2024
4. The Teenage Guide to Cryptocurrency, KDP, March 2024

Refereed Publications

1. Extreme value estimators for censored inventory demand. *International Journal of Systems Science: Operations & Logistics*, 13(1), with Martinez, L. F., López-López, D., & Torres-Pruñonosa, J. (2026).
2. Winners and losers in the platform revolution. *PLoS One* 21(2): e0340459. <https://doi.org/10.1371/journal.pone.0340459.2025>
3. Financial Returns of Customer Experience Enhancement Initiatives: An Event Study of 35 Major Corporations, *Journal of Logistics, Informatics and Service Science*, 2025
4. The Economic Impact of Remote Work Post-COVID-19: Value Creation and Destruction, *Asia Pacific Journal of Information Systems*, September, 2025
5. Review valence impact on jello shot sales. *Journal of Marketing Analytics*. <https://doi.org/10.1057/s41270-025-00412-8>, Janury, 2025
6. Building Lovemarks with Social Media Marketing: A Methodological Comparison, *Journal of Retailing and Consumer Services*, September 2025
7. Reflections on a year of significant achievements, *Electronic Commerce Research*, <https://doi.org/10.1007/s10660-025-10031-1>, August, 2025
8. Periodicity, Elliott Waves, and Fractals in the NFT Market, *Scientific Reports*, <https://doi.org/10.1038/s41598-024-55011-x>; <https://www.nature.com/articles/s41598-024-55011-x.pdf> 2024

9. Amazon Review Valence Impact. Proceedings of the Digital Marketing & eCommerce Conference. Cham: Springer Nature Switzerland, 2024.
10. A Stochastic Model of the Economics of Internet Search, *Journal of Electronic Business & Digital Economics*, Volume 3 Issue 3, 2024
11. Predicting the cryptocurrency market using social media metrics and search trends during COVID-19, (with J Mou, W Liu, C Guan, J Kim) *Electronic Commerce Research*, 1-27
12. Data-and management-driven metaverse research (with Z Pan, J Yan, H Takeda, H Lu, S Liu, W Huang, J Mou), *Data Science and Management*, Volume 7, Issue 2, June 2024, Pages 75-78
13. PLS Papers, *Electronic Commerce Research* 23 (3), 1361-1366, 2023
14. Introduction: Special Issue on digital marketing and eCommerce, *Electronic Commerce Research*, 1-2 2023 (w/ LF Martinez, FJ Martínez-López)
15. Introduction to the special issue on strategic planning for e-commerce business environment, *Electronic Commerce Research* 23 (1), 1-1, 2023
16. Determinants of liquidity in cryptocurrency markets, *Digital Finance*, 1-33, 2023
17. A comparative study of frequentist vs Bayesian A/B testing in the detection of E-commerce fraud, *Journal of Electronic Business & Digital Economics*, Vol. 1 No. 1/2, pp. 3-23. <https://doi.org/10.1108/JEBDE-07-2022-0020>
18. Blockchain for sustainable supply chain management: trends and ways forward, *Electronic Commerce Research* Published: May 2022 DOI: <https://www.doi.org/10.1007/s10660-022-09569-1> (w / Saumyanjan Sahoo, Satish Kumar, Uthayasankar Sivarajah, Weng Marc Lim, Ashwani Kumar)
19. Determinants of Liquidity in Cryptocurrency Markets, *Digital Finance*, Volume 5, pages 261–293, (2023)
20. Comorbidity Graph for Chronic Disease: A Topological Approach for Estimating Treatment Cost, (with Eric See-to), *Proceedings of PACIS 2022*
21. Information loss and bias in likert survey responses. *PLoS ONE* 17(7): e0271949. <https://doi.org/10.1371/journal.pone.0271949>, July 2022
22. Understanding Characteristics of Popular Streamers on Live Streaming Platforms: Evidence from Twitch.tv, *Journal of the AIS*, 22(4) (with K. Zhao, Y. Hu) November 2020) DOI:10.17705/1jais.00689
23. Assessing Privacy and Security of Information Systems from Audit Data, *Information Systems Frontiers*, 24 (5), 1417-1434, 2021-05-27
24. Trade informativeness and liquidity in Bitcoin markets. *PLoS ONE* 16(8): e0255515, August 12, 2021, <https://doi.org/10.1371/journal.pone.0255515>
25. When all products are digital: Complexity and intangible value in the ecosystem of digitizing firms. *MIS quarterly* 45.3 (2021): 1025-1058. (w/ Pouya Rahmati, Ali Tafti and Cesar Hidalgo)
26. Predicting Credit Card Fraud with Sarbanes-Oxley Assessments and Fama-French Risk Factors, *Intelligent Systems in Accounting, Finance and Management*, DOI: 10.1002/isaf.1472 DOI: 2020-04-10
27. The information content of Sarbanes-Oxley in predicting security breaches. *Computers & Security*. 2020 Mar 1;90:101687
28. Demand cycles and market segmentation in bicycle sharing. *Information Processing & Management* 56.4 (2019): 1592-1604 (with Jian Mou, and Dafei Yin)
29. A two-sided matching model in the context of B2B export cross-border e-commerce. *Electronic Commerce Research* 19.4 (2019): 841-861 (with Miao, Yumeng, et al.)
30. Introduction to the special issue: electronic commerce in China's Belt and Road Initiative. *Electronic Commerce Research* 19.4 (2019): 747-748.
31. Microlending on mobile social credit platforms: an exploratory study using Philippine loan contracts. *Electronic Commerce Research* (2019): 1-24 (with Mou, Jian, et al.)
32. Introduction to the special issue on Big Data in finance and business. *Electronic Commerce Research* 18.2 (2018): 201-201.
33. Convolutional Neural Network Deep-Learning Models for Prediction of Shared Bicycle Demand. *International Conference on Applications and Techniques in Cyber Security and Intelligence*. Springer, Cham, 2018 (with Jian Mou, and Dafei Yin)
34. Introduction to the special issue: electronic commerce in social networks. *Electronic Commerce Research*. 2020 Mar 7:1-.

35. Methods to assess the value of new technologies: The case of consumer sentiment towards digital wallet technology." *Data-Enabled Discovery and Applications* 1.1 (2017): 2.
36. An empirical investigation of analytical procedures using mixture distributions, *J Christopher Westland - Intelligent Systems in Accounting and Auditing*, 2017
37. Co-Diffusion of Mobile Operator's OTT and SMS Messaging Services in Emerging Economies, Y Yu, JX Hao, M Zuo, S Shan, C Westland - 2016 - aisel.aisnet.org
38. Electronic Commerce Research in seven maps (Hsu, Chien-Lung, J. Christopher Westland, and Chun-Hao Chiang) *Electronic Commerce Research* 15.2 (2015): 147-158.
39. Substitutes, complements and network effects in instant messaging services (JC Westland, JX Hao, X Xiao, S Shan) *Networks and Spatial Economics* 16.2 (2016): 525-543.
40. The golden age of consumer research." *Electronic Commerce Research* 15.3 (2015): 297-299.
41. Convolutional Neural Network Deep-Learning Models for Prediction of Shared Bicycle Demand (Westland, J. Christopher, Jian Mou, and Dafei Yin. ") book chapter, *International Conference on Applications and Techniques in Cyber Security and Intelligence*. Springer, Cham, 2018.
42. Transaction risk management in China-US trade e-markets. (Westland, J. Christopher, and Ye Di) *Proceedings of the 14th Annual International Conference on Electronic Commerce*. ACM, 2012.
43. Introduction to the special issue on Big Data in finance and business." *Electronic Commerce Research* 18.2 (2018): 201-201.
44. Economics of eBay's buyer protection plan." *Financial Innovation* 1.1 (2015): 7.
45. The moderating role of income on consumers' preferences and usage for online and offline payment methods (See-To, Eric WK, Savvas Papagiannidis, and J. Christopher Westland.) *Electronic Commerce Research* 14.2 (2014): 189-213.
46. The adoption of social networking technologies in cinema releases." *Information Technology and Management* 13.3 (2012): 167-181.
47. Chinese E-Commerce Introduction (Westland, J. Christopher, Guoqing Chen, and Sulin Ba) (2013): 297-298.
48. The information content of financial survey response data." *Financial Innovation* 1.1 (2015): 10
49. Employing transaction aggregation strategy to detect credit card fraud, S Jha, M Guillen, JC Westland - *Expert systems with applications*, 2012 - Elsevier
50. A descriptive study of credit card fraud pattern (Jha, Sanjeev, and J. Christopher Westland.), *Global Business Review* 14.3 (2013): 373-384.
51. Employing Transaction Aggregation Strategy to Detect Credit Card Fraud Expert Systems With Applications, *Expert Systems With Applications*, ESWA-D-12-00805 forthcoming 2012 (w. Montserrat Guillen and Sanjeev Jha)
52. The Adoption of Social Networking Technologies in Cinema Releases; *Information Technology and Management*, <http://www.springerlink.com/content/g23qg84ru0p45122/> 2012
53. Affective Technologies in Survey Research; *Information Technology and Management*, <https://springerlink3.metapress.com/content/x52716m719127430/resource-secured/?target=fulltext.pdf&sid=jahv2wfekzeq2nn4hpdzifyx&sh=www.springerlink.com> 2012
54. Electrodermal Response in Gaming, *Journal of Computer Networks and Communications*, vol. 2011, Article ID 610645, 2011. doi:10.1155/2011/610645.
55. Lower Bounds on Sample Size in Structural Equation Modeling, *Electronic Commerce Research and Applications*, Dec 2010, PII:S1567-4223(10)00054-2, DOI: 10.1016/j.elerap.2010.07.003 (with software downloadable from Elsevier) in Top Ten Most Downloaded papers on ECRA
56. Divorce Insurance: Mitigating the Adjudication Period Financial Crisis, *Journal of Divorce & Remarriage*, 52:1-38, 2011, ISSN: 1050-2556 print/1540-4811 online, DOI: 10.1080/10502556.2011.585084 (lead article) Data Mining for Credit Card Fraud, *Decision Support Systems* (with Sid Battacharyya and Sanjeev Jha) 2010 DOI: 10.1016/j.dss.2010.08.008
57. Critical mass and willingness to pay for social networks, *Electronic Commerce Research and Applications*, Dec 2009 (lead article, with comment by Andrew Odlyzko)
58. Incentives for Mobile-Online Gaming with Competing Electronic Cash Services, *International Journal of Electronic Business* (with E.W.K. See-To), 2009

59. Short-run Price-Performance Dynamics in Microcomputer Technologies, *Research Policy* (with E.W.K. See-To) volume 36, Issue 5, Pages 591-806, June 2007
60. The IS Core-XII: Positive Research in Information Systems, in *Communications of the AIS*, 2004 in volume 14
61. Why is it so difficult to put a value on technology?, *The International Journal of Entrepreneurship Education (IJEE)*, v. 3 (2004)
62. The Cost Behavior of Software Defects, *Decision Support Systems*, Volume 37, Issue 2, May 2004, Pages 229-238
63. What Electronic Commerce Can Learn from Securities Market Automation, in Tan, F. (ed.) *Advanced Topics in Global Information Management*, Idea Group, 2003 pp. 97-119
64. Preference ordering Cash, Near Cash and Electronic Cash, *Journal of Organizational Computing and Electronic Commerce*, 12(3), pp. 223-242, 2002
65. Transaction risk in electronic commerce, *Decision Support Systems*, (33)1 (2002) pp. 87
66. Electronic commerce and delays in market matching, *Journal of Organizational Computing and Electronic Commerce*, Volume 12 Number 2, Jun 2002, 121-132
67. Systems Complexity and the Cost of Errors in Software Development, *Journal of Systems and Software*, Volume 62, Issue 1, 1 May 2002, p. 1-10 (lead article)
68. Electronic Delivery of Convenience: A Service Innovation at the 7-Eleven Retail Chain in Hong Kong, *Journal of Information Technology Cases and Applications (JITCA)*, 2002 (with Lange, Karl)
69. Electronic commerce and delays in market matching, *Journal of Organizational Computing and Electronic Commerce*, 2001
70. Ten Lessons that Electronic Commerce Can Learn from the Automation of Securities Exchanges, *Journal of Global Information Management*, Jan-Mar 2000
71. Privatization of Electrical Networks in Chile: A Case Study to Serve as a Model for Information Networks of Today *Journal of Information Technology Cases and Applications (JITCA)*, v. 2 (3) 2000
72. Modeling the Incidence of Post-Release Errors in Software, *Information Systems Research*, September 2000
73. Customer and Merchant Acceptance of Electronic Cash: Evidence from Mondex in Hong Kong, *International Journal of Electronic Commerce*, v 2(4) Summer, 1998, 5-26
74. Impacts of Electronic Marketplaces on Product Prices: An Empirical Study of the AUCNET Case, *International Journal of Electronic Commerce*, Volume 4, Issue 2 December 1999 Pages: 45 - 60 (with H.G. Lee and S. Hong)
75. Some Conditions for Cost Efficiency in Hypermedia, *Information Processing and Management*, v.34(2/3), 1998, 309-323
76. A Comparison of Shopping Experiences in Three Competing Digital Retailing Interfaces (w/ Grace Au), *International Journal of Electronic Commerce*, 1998
77. The Moscow Stock Exchange and The Shanghai Stock Exchange: Electronic Markets for Voucher Driven and State Managed Privatization of State Owned Enterprises, in *Business Information Technology Management: Closing the International Divide*, P. Banerjee, R. Hackney, G. Dhillon and R. Jain (eds.), Haranand, 1998
78. Electronic Cash in Hong Kong Electronic Markets v.7(2), p. 3 (with M. Kwok, J. Shu, T. Kwok and H. Ho)
79. Automation of China's Securities Markets (1997) *Electronic Markets* v.7(2), p. 3 (with 23. S.M. So)
80. A Rational Choice Model of Computer Network Security, *Journal of Electronic Commerce*, v.1(2), Winter 1996-97
81. The COCOMO 2.0 Software Cost Estimation Model, *American Programmer*, Cutter Information Corp., July 1996, and reprinted in *Software Management*, Fifth Edition, IEEE Computer Society Press, Washington D.C., 1996 (with B. Boehm, B. Clark, E. Horowitz, R. Madachy and R. Selby), 1996
82. Cost Models for Future Software Life Cycle Processes: COCOMO 2.0, *Annals of Software Engineering*, Vol. 1, Software Process and Product Measurement, J.D. Arthur and S.M. Henry (eds.), J.C. Baltzer AG, Science Publishers, Amsterdam, The Netherlands, 1995, pp. 57-94 (with B. Boehm, B. Clark, E. Horowitz, R. Madachy and R. Selby)
83. Bayesian Alternatives to Neural Computing, *IEEE Transactions on Systems, Man and Cybernetics*, November 1994
84. Reporting Strategies for 'Events' Accounting, *Journal of Information Systems*, Fall 1994
85. Business Process Reengineering at Pacific Bell, *Planning Review*, May/June, 28-33 (with) Housel, Thomas and Christopher Morris)
86. Congestion and Network Externalities in the Short Run Pricing of Information Systems Services, *Management Science*, v. 38(6) July 1992, 992-1099

87. CASE as Negotiation: Goals for Systems Design and Management of Group Learning in an Automated Systems Design Process, *Sistemica*, v.1(2), 131-143 (English version) 145159 (Spanish version)
88. Cinema Theory, Video Games, and Multimedia Production, in *Multimedia Computing: Preparing for the 21Century*, Reisman (ed.), Middletown, PA: Idea Group Publishing, December 1995
89. The Marginal Analysis of Investments in Information Technology, in *Strategic and Economic Impacts of Information Technology Investment: Perspectives on Organizational Growth and Competitive Advantage*, Mahmood, Banker and Kauffman (eds.), Middletown, PA: Idea Group Publishing, September, 55-81
90. Economics and Global Information Technology Education, in *Global Information Technology Education: Issues and Trends*, Lock (ed.), Middletown, PA: Idea Group Publishing, 419-450
91. CASE in Business and Administrative Information Systems, in *Computer-Aided Software Engineering: Issues and Trends for the 1990s and Beyond*, Bergin (ed.), Middletown, PA: Idea Group Publishing, 401-427
92. Allocated Cost Schedules to Control Equipment Usage 'Bottlenecks', in *Tools and Techniques of Cost Estimating and Analysis*, W.R.Greer (ed.), New York: Springer-Verlag, 65-81
93. Economic Incentives for Database Normalization, *Information Processing and Management*, v. 28 (5), 647-662
94. Problem Vectorizability and the Market for Vector Supercomputing, *Information Processing and Management*, v. 27(5), 499-515
95. Collaboration and Productivity in Information Systems Research, *The Information Society* v.7(1), 33-50
96. Self-Organizing Executive Information Networks, *Decision Support Systems*, v.8, 41-53
97. Scaling Up Output Volumes Predicted by Information Systems Prototypes, *Association for Computing Machinery/TODS*, v. 15(3), 341-358
98. Assessing the Economic Benefits of Information Systems Auditing, *Information Systems Research*, v.1(3), September 1990, 309-24
99. Economic Constraints in Hypertext, *Journal of the American Society for Information Science*, v. 42(3), 178-184
100. Topic Specific Market Concentration in the Information Services Industry: Evidence from the DIALOG Group of Databases, *The Information Society*, v. 6, 127-138
101. Parallel Renaissance in Neural Networks: A Bayesian Approach to Neural Learning, *Behavioral and Brain Science*, v.12, 1989, 160 (with Manfred Kochen)
102. A Net Benefits Approach to Measuring Retrieval Performance, *Information Processing and Management*, v.25(5), 579-581

Computer Languages

R, Keras, Tensorflow, Python, Fortran, SAS, SPSS, Mathematica, HTML, C#, C++, C, VB

Executive Education

1. Vietnam EMBA, Hanoi and HCMC, Vietnam
2. American University of North Africa, Tunis, Tunisia
3. New York Institute of Finance, Valuation of Technology Ventures
4. Kellogg-HKUST, Information Technology Strategy
5. CIEBS, Information Technology Strategy
6. Tsinghua, Information Technology Strategy
7. USC, Information Technology Strategy

Teaching Case Studies

1. Electronic Delivery of Convenience: A Service Innovation at the 7-Eleven Retail Chain in Hong Kong, 2002 (with Lange, Karl)
2. Privatization of Electrical Networks in Chile: A Case Study to Serve as a Model for Information Networks of Today, 2000
3. The Moscow Stock Exchange, 1997
4. The Shanghai Stock Exchange, 1997 China's Brokerage Rooms, 1997
5. Electronic Securities Trading at the Bolsa de Comercio de Santiago, 1994
6. Chilgener: Pricing of Network Services, 1994
7. Philippines Telephone & Telegraph, 1994
8. Information Systems Security at McDonnell Douglas Aerospace Information Systems, February 1993 and videotape by same title, 1993

Consulting (selected projects)

1. Research Corporation of University of Hawaii (Innovation strategy)
2. Audit & Assurance Services Committee
3. Board of Directors, MIT e-Business Center, Boston, MA, USA
4. Business Week Board of Advisors (Asia, Finance)
5. Forensis (expert testimony in numerous ongoing cases)
6. Rosenfeld Hafron Shapiro & Farmer LLP (Forensic Accounting)
7. The Emerging Markets Risk Advisory (technology risk modeling)
8. External Examiner for MBA programs at Hong Kong University
9. Borland (IS Governance)
10. Singapore Manufacturers Association (technology valuation)
11. Microsoft (Redmond WA; Dublin, Ireland; valuing technology / software cost modeling)
12. Aerospace Corporation (software cost modeling)
13. V-Tech (software business modeling and industrial design)
14. Intel (Rosettanet)
15. Motorola (mobile Internet markets)
16. IBM (electronic commerce)
17. Pacific Bell (software cost modeling and workflow)

Selected Trade Publications

1. Valuing Tech, Benchmark, October 2003, Vol. 1, No. 10, p. 34-40
2. The Internet's Challenge to Accounting, The Hong Kong Management Accountants, Fall
3. Cyberport is the wrong way to promote E-commerce, The Hong Kong Economic Journal, Mar 29, 1999
